Mrs. Rounds Given Birthday Party—New  
Officers Installed—Week End Guests.

A very enjoyable Circle was held at  
the Wilkins Community House on Sat-  
urday evening, Jan. 31st. This date be-  
ing the birthday of Mrs. F. B. Rounds,  
who has been the secretary and treasurer  
of the Circle for a number of years, she  
was the guest of honor. A delicious sup-  
per was served at 6:30 to about sixty  
people were still seated at the ta-  
bles, Rev. A. C. Townsend made a few  
remarks appropriate to the occasion and  
read an original poem, after which the  
committee, in behalf of the Circle, pre-  
sented Mrs. Rounds with a birthday cake,  
which was decorated and lighted with  
tiny candles. Mrs. Rounds was complet-  
ely surprised, as she had no inkling that  
this was to be a birthday party, but she  
rose to the occasion and made a speech,  
thanking the Circle for the honor be-  
stowed upon her. After supper there was  
a social, which was well attended by peo-  
ple from the two villages and several out  
of town people, among them being a num-  
ber of Bridgton Academy students. The

Announcement

I wish to announce to the citizens of Norway  
that I am a candidate for the office of Selectman.

Your support will be appreciated.

RAYMOND H. EASTMAN.

A rumor has been circulated in Norway, say-  
ing that I had decided to withdraw as a can-  
didate for the office of Town Clerk and that I  
would attempt to induce my friends to support  
Mr. Klain for this office.

I wish to say to the people of Norway that  
such rumors are absolutely without foundation.  
I intend to be a candidate for Town Clerk and  
all reports to the contrary should be disregarded.

## Heard and Seen at Advertiser Office

"What's the matter with you? Is it bigotry and intolerance, greed for pelf, or blind stupidity?"

An ad appears in this issue for four men to be made at the rate of \$25.50 per week. See ad under head of "Wanted."

Sent in: "Wanted, some one at the Wearies to whallop, beat and lambaste the Greenleaf at cribbage. Apply at once."

Maurice Knightly showed us a large branch of pussy willows well filled out, which he found up over the hill on Pleasant street the third of February.

In this issue you will find an announcement of Mrs. Hazel E. Conary as a candidate for the office of Town Treasurer and Tax Collector of Norway. See ad.

F. W. Sanborn: "Nineteen different jack knives have lost their charm. Town report printing is being done at the Executive Session for at least a month."

Ned F. Truman has placed an ad in this issue announcing that he will be a candidate for Road Commissioner in the village district at the March town meeting. See ad.

Monday, Feb. 2. Candlemas Day, dawned snowy, clearing by mid-afternoon, hence frosty. The ground hog saw his shadow.

The Advertiser is not always a well-known visitor. A young lady from a nearby town, on being asked if she ever read the Norway Advertiser, replied, "No; I have read it a few times, but knew all there was in it before."

The U. S. Pencil Co., of New York continues to lambast and annoy. They sent "statement" which appears to show we owe them \$4.00, which is not so. We owe them nothing. Why the postal department will permit such abuse we know not.

We have been printing quarter sheet posters for an auction to be held Saturday, Feb. 28, at the residence of the late Charles A. Frost, Main street, Norway at 1 o'clock. L. J. Frost will be the auctioneer. Charles S. McIntire of East Waterford is the executor of the estate.

Tuesday morning was cold and that is not idle talk. Lowest below zero reading are reported as follows: Paris Hill, 26; South Paris village, 31; Norway village, 26; Bolster's Mills, 35, and Oxford 20. Many water pipes suffered and the electric thawing machine was in use for a time.

A little girl called Wednesday and said, "Here is a pipe I found Wednesday at the corner of Paris and East Streets. Thought I'd bring it here and you might find the owner. I know my g-a-p-p-a loves his pipe and would hate to lose it and perhaps someone loves this one, but I don't want my name put in the paper about it."

Harry E. Lovejoy tells a story of school days before trout officers were born. His school was a log generally at the foot of the class, who rather go fishing than study. After the boy was absent three days, the teacher notified the father, who agreed to settle the matter once and for all time. There was a story in the view. The truant gave the excuse that the class was so far behind him he stayed out so they might catch up. And he got away with it.

The woodchuck had a varied career on Candlemas Day, if he crawled from his hole according to schedule. Snow squalls opened the day and continued until the snow burst through at 2 p. m., and set in a blaze of glory. Weather prophets may tell us the ground hog came out, capered around for a while, then his shadow seen him home. We should expect words of mild weather, followed by a cold spell for a backward spring, and the old notions true.

Don Seitz says: "Business seems to be picking up slightly, though Lord & Thomas laid off fifty men last week in their New York office, having lost a two million dollar account. The retail stores in town appear about as crowded as ever and the streets are well lined with people and crowds of both people and automobiles. The motion picture concerns report increased earnings and the show houses are packed. Outside of the drought areas there is small complaint from the farmers who have been placed at a perpetual disadvantage anyway. The country has accumulated more wealth than it can pay dividends on. The crowd can't both pay profits and then compound them. It isn't in the animal."

Striking a responsive chord in the make-up of C. D. Waters, of Montpelier, Vt., he writes, viz:

"In the last 'Advertiser' I read the complaint of two men in the 'Wearies' relative to listening to the 'Radio' and trying to play cards at the same time."

"You may tell that man, whoever he is, that I have had him for a long time that the 'Wearies' was a pretty good concern to belong to and that when I got around to apply for membership, I shall come straight to him to endorse my application."

"You may say to him that I will come to his house and play whist with himself and his good wife—or I will discuss Holy Writ with his family—or I will play 'Devil's' with him but I want the privilege, when necessary requires, of cussing out loud and getting a hearing."

Sent in: "Yes, sir, prosperity has at last returned the more or less to the corner. One local man announces that two batches of candy were made in his kitchen during the past month, while none were made before; the sugar surplus, which has hung gloomily for a long while has thus received a decided impetus. The recovery of copper is more marked, however; George Howe recently made a very good teapot handle by using copper wire while Keith Bradbury has cleaned his pipe out with a wire of red metal. Copper men have renewed faith in the future. The unemployment problem has also been solved; a man was recently seen strolling snow off Arthur Hartman's roof. When Jimmy Steward announced the arrival of his license plates, gas and oil men all over the county knew that the tide had turned. The rubber industry also expects increased business as a result. Just one thing mars the otherwise perfect picture; the man who had his shoes tapped recently, helped the leather business considerably, but put the shoe business on the bum for some little time. Since all the worthy gentlemen above, except one, have done their level best to bring prosperity back here's a way for you to help; get out your pencil and pen and figure up the beneficial and far-reaching effects of their noble deeds, and when paper mills and pencil manufacturers announce an increase in business you can say, 'I did that.' Oh, boy, it won't be long now!"

Walter K. Hamlin of South Waterford, pioneer maker of butter—best made in four townships, and for that matter, in the state, was a recent caller. He paid for his copy of the Norway Advertiser for about the fiftieth time, also left orders for job printing. Walter was accompanied by his son, Albert W. Hamlin, who helps out in carrying on the business established by his father.

Frank E. Mitchell, the sage of Alton Bay, N. H., says in the News and Critic: "Just now the citizens of the United States are bedeviled by the problems of unemployment, political strife, prohibition, over-taxation, increasing cost of government, traffic congestion, automobile accidents, and other matters of both education and common sense."

"Meanwhile Congress is discussing drought relief, aid for Indians, pensions for World War participants, increase or curtailment of naval strength, and other questions that confuse and perplex us. Why all this uncertainty and alarm? Why do our wise men of business and politics spend so much time on theories instead of getting down to facts? Why make out a logical course and then pursue it?"

"On the night of November 20, 1887, a fire broke out in the winter quarters of Barnum & Bailey at Bridgeport, Conn. Many valuable animals and much property was destroyed. Loss, a quarter of a million. Insurance, small. Many people said it was the end of the enterprise."

"Mr. Barnum, asleep at the Murray Hill Hotel in New York, was aroused and told of this uncertainty and alarm. He said, 'but apparent evils are often blessings in disguise.' With that, related Mrs. Barnum, he rolled back into his comfortable position and in less than three minutes was fast asleep."

"The next morning Mr. Barnum tackled his problem and eleven days after the disaster Barnum and Bailey were the owners of a much finer menagerie than the one they had lost."

"If two individuals, without great resources, can thus quickly recoup their loss and go forward to greater things, a nation with the latent power of the United States of America should be able to emerge from its difficulties and proceed upon its way."

### The Rise of Tom Hadley

(Continued from page 4)

no ambition for political honors. He is the real manager of the affairs of the Trust Company since Tom has gone into political life, and has fallen into his father's ways, and they now work together admirably. The four families have two summer cottages near the upper pond on the tract obtained from the state, where they spend the heated season of the year. Fishing is still good there, and hunting pretty fair up among the high hills. The lot is still a great source of income in its immense pine, spruce and hardwood growth, and will remain so for many years to come.

Mr. and Mrs. John Hadley are blast with their daughter, Bess, who has finished her English and musical education and is engaged to Robert Morton, and they will be married when he is admitted to practice law and is ready to settle down for good at Lakewood. They will make their home with her parents.

Luther Elliott married Miss Ada Turner and they are living very happily together, owing largely to her keeping her self attractive and being able to make him feel that there is no other woman quite her equal. He is now the proprietor of the ready-made clothing store, and her knowledge of financial matters is so extensive that she still retains her position in the bank, with an increase of salary.

Clarence Sidney married Miss Annie White. He keeps his clerkship in a store and organist at the Unitarian church, which says him well. He is now employed at the Benton's, where his services could not well be dispensed with. She is quite able to check any of Sidney's unnecessary thumping on the piano.

Rev. Allen Raymond is engaged to be married to Miss Josephine Harris, the efficient clerk in the Trust Company's office. Their honeymoon will be spent abroad during the summer vacation in Switzerland.

Dick Scott is fast rising to prominence as a business man and is designated for legislative honors. He is engaged to Miss Cora Gardner.

Sam Dasher married Mrs. Hannah Gordon. Her cookery—particularly the doughnuts, it is said—is the moving cause. They are a happy pair. He still hunts and fishes in the "northern country."

Jim has a position in the express office. He is engaged to the little beauty, Miss Alice Mariani Weston.

Victor Whiting is rapidly acquiring fame as a story writer. He is soon to be married to that smart and charming young lady, Miss Mary Jones Randolph. They are to go around the world after that happy event and may cross the Atlantic in an airplane.

**Don't neglect a COLD**  
DISTRESSING cold in chest or  
throat—that so often leads  
to something serious—generally responds  
to good old Muxterole with the first  
application. Should be more effective  
used once every hour for five hours.  
This famous blend of oil of mustard,  
camphor, menthol and other helpful in-  
gredients brings relief naturally. Mus-  
terole acts because it is a scientific  
"counter-irritant"—not just a salve  
—it penetrates and stimulates blood  
circulation, helps to draw out infection  
and pain. Used by millions for 20 years.  
Recommended by doctors and nurses.  
Keep Muxterole handy—jars and tubes.  
To Mothers—Muxterole is also  
made in milder form for babies  
and small children. Ask for Chil-  
dren's Muxterole.
